

Scope of delivery for iC Plus running gear expanded

75772401e
2024-08-06

From September 2024, the new iC Plus running gear generation will also be available with the iC Plus Gateway PRO telematics system from idem telematics as an option.

iC Plus Gateway PRO enables the use of additional telematics functions via the Cargofleet3 portal. In addition, the hardware is approved as a temperature recorder in accordance with EN 12830, meaning that refrigerated vehicles can also be equipped with iC Plus in future.

Comparison of iC Plus Gateway BASIC and iC Plus Gateway PRO functions
